Notification

Visual Studio Output window showing debug messages. The 'Show output from:' dropdown is set to 'Debug'. The output pane contains five identical lines of text: `'InputOutputRegistrationApp.exe' (CLR v4.0.30319: InputOutputRegistrationApp.exe): Loaded 'C:\Wir`. The text is truncated on the right side. Below the output pane is a toolbar with buttons for 'Call Stack', 'Breakpoints', 'Exception Settings', 'Command Window', 'Immediate Window', and 'Output'.

```
Show output from: Debug
'InputOutputRegistrationApp.exe' (CLR v4.0.30319: InputOutputRegistrationApp.exe): Loaded 'C:\Wir
'InputOutputRegistrationApp.exe' (CLR v4.0.30319: InputOutputRegistrationApp.exe): Loaded 'C:\Wir
'InputOutputRegistrationApp.exe' (CLR v4.0.30319: InputOutputRegistrationApp.exe): Loaded 'C:\Wir
'InputOutputRegistrationApp.exe' (CLR v4.0.30319: InputOutputRegistrationApp.exe): Loaded 'C:\Wir
'InputOutputRegistrationApp.exe' (CLR v4.0.30319: InputOutputRegistrationApp.exe): Loaded 'C:\Wir
Done writing details.
```

Event driven result Form2

A screenshot of a Windows application window titled 'Frm Content'. The window has a standard Windows title bar with minimize, maximize, and close buttons. Inside the window, there is a label 'Content:' followed by a text box containing the following information:
Student No.: 2000376951
